

## Joined BIZ MTG in Singapore

Back on July 27, ORTHOREBIRTH joined an event in Singapore named "Seminar on Business Environment in Okinawa Pref. & Business Meeting with Okinawa-based Companies." This business event was designed for advertising to companies in Singapore the wonderful characteristics of Okinawa Pref. as an international business partner and its business performing environment. This event is featured with business presentations by JETRO Okinawa (the co-organizer of this event), Business Relocation Promotion Sec. of Okinawa Prefectural Government, Okinawa Institute Science and Technology and other businesses. Then, business meeting was held in each of the seven Okinawa-based businesses attending this event. Lots of Singaporean businesses showed a strong interest in our ReBOSSIS. Receiving a good response, we are going to actively take part in this kind of business event from now on.

Mr. Takeshi Onaga, Governor of Okinawa Prefecture.
